Board of Trade Convenes After Summer Recess

Kananaskis Highway entrance to Coleman highlighted the return to business of the Board of Trade dinner meeting held last Thursday evening.

This project was started last summer, but stopped after complaints were laid by certain residents in that area. The board feels that the present entrance to Coleman from this road is inadequate. After considerable discussion it was decided to have the committee meet with the town council with a view of having a more direct entrance built. An engineer from Coleman Collieries will accompany the joint committee investigating the new approach.

The neon sign on No. 3 highway at the overpass came up for serious discussion. This sign was erected by the board to point the entrance into the business district and is under a long term contract. The original agreement had some merchants contributing to the cost of operating the sign, but this agreement with these merchants has run out. The board members after very serious thought decided that they were unable to carry the cost of the sign alone, due to funds not being available. A committee was set up to find ways and means of financing the further operation of this sign. Members on this committee are Dave Young, Oratio Celli and Charlie Freeman.

East and west entrance signs came up for discussion and the board was informed by President Bill Holyk that permission for these would first have to be obtained from the Provincial Government. The members appointed for looking after this project are Bill Holyk, John Salus, Oratio Celli and Joe Hamanahon. Financial report of the board read by C. Freeman showed the board with a bank balance of \$400.32.

The Crow's Nest Pass Film Council membership drive was referred back to the board of directors for action. President Holyk reported that two different tourists who had used the camp shelter had sent money for use of certain facilities; but that this money would be returned.

Meetings nights always a controversial point, came up again for discussion as it was felt that a definite night that did not conflict with other organizations would be most desirable, so as all members would be able to attend without having to leave early to attend other meetings.

Members finally settled on the fourth Wednesday of every month starting in November. Meetings will now be published one week in advance so members will not forget the night.

Guest speaker of the evening was Mr. John Kerr of Turtle Mountain Playgrounds. Mr. Kerr is the regional director for this area with the Alberta Chamber of Commerce and Agriculture.

His main point in his speech was the recent ride over the new proposed highway from Waterton to Glacier Park. Mr. Kerr stated that he was not in accord with the other members of the party on this highway as it would open up the only virgin hunting country left in this part of the country. The reason that this road had not been put through in the past was that the B.C. government not in favor, and as 25 miles of this road would be through B. C. it was no wonder the U. S. and Waterton were in favor. At the most it would only be a 30-minute drive from Waterton to existing roads in Glacier Park. Mr. Kerr stated that Andy Russell, famed outdoors man and guide, felt the same as he did in not making this area too accessible, and spoil perfect hunting country.

Mr. Russell had proposed another route which would take it mostly through U. S. territory, and the U. S. delegates were adamant that he not go through the only good hunting country they had left.

Mr. Kerr reported briefly on Highway No. 83 from Panama City

to airbanks, Alaska. He stated that 56 copies of film on the route were in distribution covering Alberta and B. C. sections, some shots showed Crow's Nest Mountain, the Frank Slide and others. He stated he hoped to have one in the Pass shortly for showings.

At his office as director of the A.C.C. and A. he answered certain questions re briefs submitted by the Coleman Board.

To finalize the regular board meeting it was moved that a 1957 Rodeo be held.

Next on the agenda was the Rodeo committee report under President Bill Fraser. The financial statement was read and it showed a real profit. Its acceptance was moved and passed.

The committee had purchased a portable grill from J. Lombardi for \$40 for forthcoming events.

All committees are to turn in reports along with their recommendations to the new executive.

Elected to handle the Rodeo for 1957 were:

President, Horace Allen.
Vice-president, Eugene Fabro.
Secretary, Ed Howard.
Treasurer, John McDonald.
Arena director, Bill Fraser.

Following the election of Rodeo officers Mr. Dave Young showed a film of this year's Rodeo and parade in color, followed by a trip to Hawaii and of the Highland Games held in Edmonton.

The meeting concluded by singing The Queen.

Jr. Red Cross Resume Activities

With the opening of school the Junior Red Cross Society is again resuming activities. This branch which is very active in the Coleman schools contributes regularly to the ward which was furnished by the Cameron School students in the Red Cross Crippled Children's Hospital in Calgary.

Election of officers took place in Grade VI in Cameron school under the direction of Mrs. Woods. Those chosen for office were:

President, Katherine Lorenz.
Vice-president, Gail Yoshimaka.
Secretary, Doreen Waveran.
Treasurer, Spencer Dunford.
Health convener, Carol Hyashi.
Lavonne Bartlett.
Program committee, Norman Plante, Robert Franz.
George Hoake.

Wedding Announcement

Mr. and Mrs. Henry Raymond wish to announce the marriage of their eldest daughter, Joy Dawn, to Mr. Joseph Tarcon at Fort Macleod, on Friday, September 28th.

Blairmore, Bellevue Present Scholarships

Five Blairmore high school students were presented with scholarship awards in the Blairmore main school last week when all the high school and a number of parents assembled for the ceremonies.

Donald MacPherson, principal of the Blairmore High School, introduced the sponsors of the scholarships pointing out that the awards were greatly appreciated by the school and created an incentive for the students.

Mr. MacPherson called upon Bert Moorhouse, president of the Blairmore branch of the Legion, who presented an award to Miss Gloria Smaniotto for having attained the highest marks in grade 12. He then called upon Miss Marjorie Plinke for having the highest marks in grade 11 and on Miss Doreen Nystrom for having attained the highest standing in grade 10. In presenting the awards Mr. Moorhouse congratulated each of the students.

Mr. MacPherson next called on Frank Lamey, representing the Blairmore Elks Lodge who in turn called upon Tommy Petras and presented him with a cheque for having won the highest standing in grade nine. Mr. Lamey commended the youth for his efforts and encouraged him to continue his studies.

Mr. Marjorie Marcolin, representing the IOOE presented awards to Tommy Petras and to Claudette Duhamel respectively for having attained the highest honors in grade nine. In making the presentation Mrs. Marcolin conveyed the best wishes of the Daughters of the Empire to the winning students and wished them every success in life.

In response for the awards each of the students thanked the sponsors and added words of thanks to their teachers and parents and to their classmates for their co-operation in helping them win the fine awards.

BELLEVUE — John Motil, son of Mr. and Mrs. John Motil of Hillcrest was presented with a \$50 scholarship in the Bellevue Theatre Saturday evening by Sophie Taborski, president of the Ladies Auxiliary to the Bellevue branch of the Canadian Legion.

For the occasion a Legion committee marched down the aisle of the theatre and called upon the student who, after being heartily congratulated for having attained the highest marks in the Bellevue grade 12 high school, was presented with a cheque for \$50. Accepting the honor Mr. Motil thanked the Auxiliary.

The award is the first of its kind in Bellevue and according to the Auxiliary will be an annual award. The award will be presented to the boy or girl receiving the highest standing in grade 12.

Mr. Motil is the only son of Mr. and Mrs. John Motil of Hillcrest and left Bellevue last week for Edmonton where he has entered the University of Alberta to study electrical engineering.

Chances of rolling a seven in dice are one in six.

Decline Alberta Coal Output Said Stopped

CALGARY (CP) — The decline in Alberta coal production has been halted.

W. C. Whittaker, managing director of the Coal Operator's Association of Western Canada said Thursday that production in 1956 should exceed the output of 4,455,279 tons last year.

The provincial mines department reported this week that August production was 22,559 tons less than August 1955. However, Mr. Whittaker said over-all production this year is seven percent higher than last year.

The fall step-up in production has started in earnest, he said. The main problems are shortages of miners and rail cars. Several hundred men could be placed almost immediately if they are available.

Mr. Whittaker foresees production remaining steady for the next few years with demand beginning to increase in five years.

The big question mark, he said, is which fuel will be used for thermal power.

At present about 12 per cent of Alberta's power is generated from coal. With the province's power needs increasing at the rate of 10 per cent each year, demand for coal could soar to new levels. However, power concerns are also evident, natural gas as an attractive fuel for generating electricity.

In any event, Mr. Whittaker feels coal will be a factor in the growing market — possibly to the tune of millions of tons every year.

Continuing whole complexion of the coal industry is changing, he said.

RAIL USE DOWN

Since 1949 railway consumption of Alberta coal has declined from 3,609,096 tons in 1949 to 350,259 tons in 1955. Railways which once accounted for 45 per cent of a once large market, now account for only 23 per cent of a smaller market.

Industrial consumption of coal in Alberta has dropped from 814,732 tons in 1949 to 372,375 tons in 1955. Domestic consumption has dropped from 265,899 tons in 1949 to 678,416 in 1955. However, domestic consumption has climbed back from the low of 559,891 in 1953.

Mr. Whittaker said a western steel industry will some day result in an increased demand for Alberta coke. However, the coal industry expects power production to be the biggest factor in increased output in the years to come.

Announce Engagement

KOURY — The engagement is announced of Miss Joanne Koury, eldest daughter of Mr. and Mrs. J. Koury of Coleman to Mr. Philip Bryce Pollard, eldest son of Mr. and Mrs. Fred J. Pollard of Edmonton. The wedding to take place on October 13th, at Edmonton.

Polish Lad United With Mother

A very happy reunion took place at the Lethbridge airport on Saturday afternoon last when 13-year-old Jerzy-Josef Rudowski was reunited with his mother, Mrs. Josephine Misztal, whom he has not seen since he was a baby.

Jerzy-Josef is one of the first children to be reunited with his next-of-kin in Canada.

The Canadian Red Cross contacted the Polish Red Cross, who were instrumental in getting him an exit visa and passport.

Mrs. Misztal was born in Lublin, Poland, in 1923. She was married in 1942. In 1943 Jerzy was born. Later that year Mrs. Misztal and her first husband were sent from Poland to a concentration camp in Germany during the German occupation of Poland.

She was released and in 1948 she emigrated to Canada. She had divorced her husband and in 1949 she married Boleslaw Misztal in Coleman, where she now lives.

When his parents were taken to Germany Jerzy-Josef was left to the care of his grandmother. But since his grandfather is now in failing health the boy has been sent to his mother in Canada.

He left Warsaw on Thursday, September 27 and was seen off by members of the Polish Red Cross. At the various stops enroute personnel of the Red Cross looked after him.

It is hoped that there will be more of these happy reunions in the near future.

Legion Ball Team To Hold Exhibition Games

The Legion Football team which put up a good fight in the league games this year but did not quite make the finals are challenging the amateur team to an exhibition game. The proceeds of this game will be donated to the Kerner fund. Boxer tags will be sold to turn out folks and support the boys as this is a very fine feature on their part.

Besides this the team has donated a further \$20.00 to this fund out of their own club monies. So if everyone has the same wonderful spirit as these boys we are sure that the Kerner fund will go over the top bigger and better than ever.

The exhibition game between the Coleman Legion and Bellevue will be held in Coleman on Sunday, October 7th, at 2 p.m.

Bill says: The average woman considers the average man far below average.

Willow Drive News

The annual Willow Drive picnic was held in B. C. on Sunday, August 19th, with ice cream, pop, hot dogs and coffee supplied by the Association to all members who attended.

Cash prizes were awarded to the children in the various races. This was followed by women's and men's races. The spike driving contest was next on the agenda with one lady trying to drive a spike with a rubber mallet. The horse shoe contest was very well received with nearly all members participating. The picnic was very well attended being by far the largest to date and we hope it will grow larger each year.

The winner of the raffle held by the Willow Drive Association on Sept. 14th were; first, Gary George with ticket no. 176, second, Alma Krish with ticket no. 595.

At a general meeting held at the home of Mr. A. Hamner on Sept. 30 it was decided that Willow Drive would ask for light service for residents to the west of our district. It was also felt that more street lights were needed in the district. A letter was read by the secretary from A. McFarland District Commercial Superintendent of Alberta Government Telephones re Dial Telephone service for Willow Drive. This matter is under consideration by the Head Office at Edmonton and a decision has as yet not been reached.

Benjamin Franklin invented bifocal glasses to save himself the trouble of changing his spectacles when looking from near objects to far ones.

A full grown hippopotamus will reach a length of 14 feet and weigh between three and four tons.

* One of the four Master Farm Families named by the Hon. L. C. Halmrast this week, the Wilfred McGillivray family of Coaldale, just outside Lethbridge, is shown above in a fine family picture. They are, back row, left to right, Mr. Wilfred McGillivray holding grandson Ian, Mrs. McGillivray, daughter-in-law Mrs. William McGillivray and son William, holding his daughter Anne Marie; and in the front row are two sons, Don and Marvin. Top right is shown a section of the fine herd of purebred Aberdeen Angus stock raised by Mr. McGillivray, shown on left chatting with District Agriculturist Aubrey Sherman. In the background may be seen the layout of farm buildings. At bottom is a farm pond before one of the fine metal barns on the McGillivray farm.

DANCE WITH STAR, HIS DOWNFALL—Suspected bank robber Werner Steffens, 21, dances with screen star Kim Novak at the recent Film Festival in Cannes, France. This photograph which was widely circulated on the continent, caught the eye of a German police inspector and led to the arrest of Steffens in a Monte Carlo hideout. He is being held in connection with a series of bold robberies of German and Swiss banks.

Increased farm help expected

An increased flow of eastern harvest help to the west is expected as a result of Ontario's move to ease restrictions on movement of farm workers. At the same time, Manitoba authorities were awaiting reply from Ottawa for a request for "any available" servicemen to help relieve the shortage of harvesters.

These were the latest developments in the farm help picture, outlined by H. R. Richardson, director of the province's farm labor service.

He reported that during the past week there had been no westward movement of harvest excursionists from the east; Manitoba's figure of eastern harvest help still stood at 15 out of a requested 700. However, Ontario which had clamped down on recruitment of her farm harvesters was nearing completion, now was beginning to ease these restrictions, explained Mr. Richardson.

In any case, rains throughout Manitoba's agricultural belt had reduced temporarily the farm help demand, he said. Mr. Richardson reported a few soldiers during the week had responded to printed notices at military camps telling servicemen going on annual leave that farm help vacancies existed.

Antrophobia is the fear of society.

Larger volume of oil delivered through pipe lines

Volume of oil delivered through Canadian pipe lines was up sharply in June and the first six months of this year as compared with a year earlier. Deliveries were 20,122,735 barrels in June versus 18,111,357 a year ago and 129,428,238 barrels in the January-June period versus 103,662,064.

Half-year deliveries were as follows by provinces: British Columbia, 19,901,962 barrels (13,354,047 a year earlier); Alberta, 8,120,674 (8,245,927); Saskatchewan, 8,351,982; Manitoba, 34,002,769 (23,228,643); Ontario, 21,416,926 (18,570,834); and Quebec, 37,635,925 (32,588,794).

Softwoods and hardwoods

Softwoods accounted for an estimated 94.1 percent of the lumber sawn in Canada during 1954 and hardwoods for 5.9 percent. Among the provinces, British Columbia had the highest proportion of softwoods at almost 100 percent; Quebec with 19.9 percent, Ontario with 19.8 percent and Saskatchewan with 17.4 percent, the largest proportion of hardwoods.

Few of the ancient Egyptians could grow beards and it was common practice for them to attach a false beard with a strap.

Caution urged in handling firearms

E. L. Paynter, Saskatchewan Game Commissioner, issued a plea to hunters to handle firearms cautiously during the 1954 hunting season. Many of the new seasons will open early in September.

"We have already had nine gun accidents in Saskatchewan this year," said Mr. Paynter, "and one of these was fatal. We would like to impress upon everyone that a firearm is not a toy and each one must be treated with the greatest respect."

During 1954 Saskatchewan recorded 38 gun accidents, 14 of them fatal and during 1955 there were 37, of which nine were fatal. "Young people as a group are the worst offenders," said the Commissioner. "During 1955, 16 of the accidents were caused by youths 17 years old or younger. The only fatality recorded so far this year involved a youngster of nine years."

Saskatchewan annually licenses approximately 65,000 hunters and although hunting is done in the fall and winter seasons, gun accidents are a year round occurrence.

During 1955, accidents with firearms were caused by a number of violations of safety rules circulated by the department. Six were caused by accidental discharge; two while crossing a fence; four were shot in mistake for game; seven were shot while in the line of fire; six were caused by having a loaded gun in a vehicle; four happened when the operator stumbled while cleaning a gun; three were caused by children playing with a gun; and one each was caused by an insecure rest and by an unsafe gun.

A pamphlet entitled, "Saskatchewan Game Bird Synopses" is being given each hunter with his license," said Mr. Paynter, "and we would certainly appreciate it if each hunter studied the hints for safe hunting we have included in this bulletin. Please be cautious during this portion of their recreation."

Funny and Otherwise

Doctor: "Your husband has to have absolute quiet. Here is some sleeping powder."

Wife: "How much do I give him, and when?"

Doctor: "You don't give it to him; you take it yourself."

She was wearing the latest thing in a strapless gown, and the good-looking fellow across the dance floor approached her. "May I join you?" he asked.

"Good Heavens," she cried, "am I coming apart again?"

The traveller rushed up to the station window and gasped, "Give me a round-trip ticket, quick."

"Where to?" asked the agent.

"Back here, you dope."

A bicycle salesman was expecting a happy event in his family, so before leaving he instructed the nurse in charge to send a wire: "Gent's model arrived." If a boy; and, "Lady's model." If a girl.

He got the wire: "Tandem."

Joe: "There's two things we're sure of: Death and Taxes."

Moe: "Yeah, but one thing about death, it doesn't get worse every time the council meets."

"The patient in 43 keeps asking for his wife, doctor."

"Still delirious, eh?"

A great financier is one who feeds, clothes, educates and decently raises a large family on a small income.

A man can tell he is growing old when he enjoys the feeling that he is neglected.

The girls who look good in bathing suits, usually have figures to prove it.

POPULATION

First release of preliminary population figures of the 1956 Census, covering 492 smaller cities, towns and villages, indicate a marked rise since 1951 in urban population. Out of 31 cities and towns listed with population of 5,000 and over, all but three had gains, most of them substantial, while of the others all but 87 (mainly small villages) also had population gains.

The Pattern Shop

Fashions

Heirloom quilt

by Alice Brooks

An old-fashioned nosegay formed by scraps of many different fabrics. Fascinating to do — and just think of the lovely heirloom quilt you'll have when finished!

Pattern 7010: Pattern, charts, directions for scrap-quilt; in single and double-bed sizes.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department,
Department P.P.L.,
60 Front Street W., Toronto.

Two FREE patterns—printed in the new Alice Brooks Needlecraft book for 1956! Stunning designs for yourself, for your home—just for you, our readers! Dozens of other designs to order—all easy, fascinating, hand-work! Send 25 cents for your copy of this wonderful book right away!

NEW PRINTED PATTERN EASIER—FASTER—MORE ACCURATE

4598

PRINTED PATTERN

A PRINTED PATTERN—makes sewing a pleasure! See how little time it takes to make this shirt, waist dress! Step-in classic designed especially to flatter the larger figure; smart in all three sleeve versions—any season!

Printed Pattern 4598: Women's Sizes 36, 38, 40, 42, 44, 46, 48, 50. Size 36 takes 4 yards 35-inch. Directions printed on each tissue pattern part. Easy-to-use, accurate, assures perfect fit.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to:

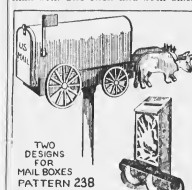

Anne Adams Pattern Dept.,
Department P.P.L.,
60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

IN THE HOME WORKSHOP

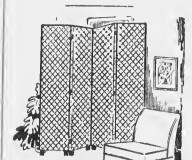

Covered wagon mail box

The covered wagon design for rural routes may be adapted to any size mail box of the type shown in the sketch by making the platform at the bottom of the mail box. The oxen and both sizes

TWO DESIGNS FOR MAIL BOXES PATTERN 238

of wheels are traced onto the wood directly from the pattern. The small letter box with bird cut-out on the door and arms for holding periodicals is for home where the postman rings twice. Tracing diagrams for all saw lines and painting outlines for both boxes are on pattern 238. Copies of this pattern are available to readers sending 35c with name and address.

PATTERN 462

A well-placed screen is the answer to many problems. You can make a handsome one of almost any size for very little. Pattern 462 shows every step for making four different types to match your decorating scheme. It will be mailed for 35c. This pattern is one of five included in the packet of Decorator Projects from the Homeshopwork. The packet price is \$1.50.

Address order to:
Home Workshop Patterns,

4435 West 5th Avenue,
Vancouver, B.C.

New school film manual issued

A new manual, listing and describing films for school use, has recently been mailed out to some 3,500 classrooms throughout the province.

E. F. Holliday, supervisor of visual education for Saskatchewan, said that the manual is designed to assist teachers in making the most effective use of the facilities of the visual education branch. The aim is to provide one manual for each classroom of the 616 schools which are equipped to use visual

aids. The current "Manual of Audio-Visual Aids for Saskatchewan Schools" will be used for the next five years. It can be kept up to date by the teachers themselves by simply attaching listings of new films to the binder-type manual as supplied by the branch.

Titles of 1,656 films are already listed in the manual, Mr. Holliday said. The last manual was issued in 1953.

All films listed and described in the manual are the 16 mm. sound variety, some colored, others black and white.

Mother and child

In Canada, so far advanced in medical science, there are far too many infant deaths. Better care and regular attention for the expectant mother would help to lower the infant mortality rate that is so high in many countries, including our own. Most towns and cities in Canada have prenatal clinics where the expectant mother may have medical check-ups, and receive advice in keeping healthy, both for her own sake and that of her child.

Delectable!

Downright delectable... these flavorful Cheese Puffs, fresh and fragrant from the oven. Made with Fleischmann's Active Dry Yeast, they're a cinch to prepare. Next time you bake at home, bake a batch of these delicious cheese treats!

Cheese Puffs

1. Scald ¾ cup milk

Stir in

1 tablespoon granulated sugar

1 teaspoon salt

½ cup shortening

Cool to lukewarm.

2. Measure, measure into bowl

½ cup lukewarm water

Stir in

1 teaspoon granulated sugar

Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast

Let stand 10 minutes, THEN stir well.

Stir in lukewarm milk mixture and

1 cup shredded old cheddar cheese

2 cups once-sifted all-purpose flour

½ teaspoon celery seeds

and beat well—about 2 minutes. Scoop down sides of bowl. Cover with a damp cloth. Let rise in warm place, free from draft, until doubled in bulk—about 50 minutes.

3. Beat down batter. Spoon into 12 greased over-sized muffin pans. Bake in a hot oven, 400°, about 25 minutes.

Yield—12 puffs.

Needs no refrigeration

Jane Ashley Says

"Corn Starch Makes Smoother Sauces!"

WELSH RAREBIT

2 tablespoons butter

1½ tablespoons BENSON'S or CANADA Corn Starch

1½ cups milk

1¼ cups grated sharp cheese

½ teaspoon salt

¼ teaspoon pepper

¼ teaspoon paprika

Dash cayenne (optional)

½ teaspoon dry mustard

1 tablespoon chopped parsley

MELT butter in top of double boiler.

BLEND in BENSON'S or CANADA Corn Starch; place over boiling water.

MIX in milk gradually; stir until sauce has thickened.

COVER and cook 10 minutes, stirring occasionally.

ADD grated cheese and stir until melted.

ADD seasonings and parsley.

SERVE hot on buttered toast or on heated, crisp soda crackers.

YIELD: 4 to 6 servings.

Tomato Rarebit: ADD ½ to ¾ cup cooked tomatoes to above recipe.

The Sports Clinic

(An official department of the Canadian Amateur Sport and Physical Fitness Development Service)
By Lloyd Percival

Try the "sweater trick" for extra points

The point-after-touchdown and field goal specialist is a big scoring threat on any football team. Almost invariably, you find him up at the top of the scoring race, and frequently his accuracy decides the outcome of a close game.

One of the most important things the placement kicker must learn to do is keep his head down and his eye on the ball. There are two reasons. First, he must watch the ball to make sure that his foot connects with the right spot. And second, to look up and at the charging defensive linemen almost always rattles the kicker and causes him to miss.

Lou Groza, of the Cleveland Browns, one of the great field goal kickers of all time, used a special trick to make himself keep his head down while he was learning his art. Groza used to hold the neck of his sweater between his teeth while he practised. In this way, he had to keep his head down, and after a great deal of practice he found that the head-down position had become automatic.

So if you're the point-after-touchdown specialist on your team—or you would like to be—why not try Groza's stunt? It will more than pay off in accuracy.

Don't let stiffness stop you

Something that discourages many people who have started on a fitness campaign is the stiff aching muscles you get a day or two after you have started exercising. It's a very natural reaction, but it has the unfortunate effect of causing many people to give up their program and forget about their fitness ambitions.

There are two things to remember. First, many people start their exercising too enthusiastically. They let their exuberance and ambition carry them away. The result, naturally, is stiffness. So be

sure to start slowly—do only a few mild exercises the first day, building up gradually over a few weeks. That's the best way to avoid stiffness and keep your enthusiasm high at the same time.

The second thing to remember is that if you do become stiff, the best medicine is the hair of the dog that bit you. Repeat the exercises that caused the stiffness because by doing this your muscles quickly become adjusted to them and a lot of the soreness will be eliminated quickly.

If the aches and pains are particularly bothersome, a couple of hot baths will help a great deal, too.

The Canadian Amateur Sports and Physical Fitness Development Service is a nationwide project operated by Sports College to improve standards of sports and physical fitness. This newspaper is pleased to participate in this service by presenting "The Sports Clinic". Further information about CASPFDS may be obtained by writing to Sports College, Box 99, Toronto 1.

WEEKLY BIBLE COMMENT

INTERPRETIVE TASK
EARLY CHRISTIANS
HAD DIFFICULT

The early Christian writers had the task of explaining the Christian faith in relation to the religion in which many of the disciples had been brought up. In the thoughts of Paul and other Christian writers, there was no breach between Judaism and Christianity. They thought of their Christian experience as a fulfillment of the faith and practice to which they had been accustomed.

Deep in this former faith and practice had been the emphasis upon blood sacrifice. It was part of the Jewish ritual. In common with almost all religions, the conception of blood sacrifice and blood covenant played an essential part. Then came the sacrifice of Christ upon the cross, and the Christian teaching relating this sacrifice to the Jewish ritual and practice. This, in the Christian thought, marked a new covenant.

The salvation of men was no longer to be won by the shedding of the blood of sacrificial animals. Salvation was rather through the sacrifice of Christ.

This is a lesson of mystery which it is not easy either to understand or to explain.

A great theologian has said, "What Christ is on the cross, God eternally is."

The idea of Christianity and of the New Testament is that for our salvation no sacrifice is needed but that of a sincere and contrite heart.

God is not to be appeased. He is Himself through Christ the appeaser, inviting us to receive His grace and accept the sacrifice made through love.

:: GEMS OF THOUGHT ::

WAITING

All human wisdom is summed up in two words—wait and hope.
—Alexandre Dumas the Elder.
Its awful how much of our lives we spend just waiting.

—John O'Hara
I have no mockings or arguments; I witness and wait.
—Walt Whitman

How poor are they that have no patience! —William Shakespeare
Know ye not that he who exercises the largest charity, and waits on God, renews his strength, and is exalted? —Mary Baker Eddy
Everything comes to him who hustles while he waits.
—Thomas A. Edison

ANSWERS TO QUICK QUIZ

5. About the same amount on each, approximately \$1,759 million.
3. Farming \$80,000, mining 140,000; manufacturing 1,300,000.
1. Lake Superior, 383 miles. 4. Rt. Hon. R. B. Bennett. 2. About \$33 million per month.
(Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.)

On The Side: E. V. Durling

This year's hurricanes, according to official statement, will be given feminine names "from Anna to Zenda". Where did the weather bureau men and that name Zenda? I never heard of it before. Still, female names beginning with Z are hard to find. Only ones I can think of are Zoe, Zenobia and Zenocrate.

Reflection of a wife

A man with well-polished boots is a rarity. Too many men are also featuring shoes with run-down heels. The number of coatless men wearing wrinkled, sloppy shirts and minus neckties is increasing in an alarming manner. So writes a feminine subscriber. She adds that when a man presents a generally sloppy appearance it is a reflection on his wife. That you can get an idea of a wife's character by the way her husband looks. She says the truly intelligent wife who has a real love for her husband subjects him to a daily inspection before he leaves home. And that the "stupid, careless, self-centred" wife is "too wrapped up in her own trivial troubles to pay any attention to how her husband looks."

Food by stopwatch

How much can you eat and drink in one hour and 40 minutes? A restaurant in Rotterdam, Holland, offers all you can eat and drink in that time for the equivalent of \$2.80. It is a high-class place with a highly varied menu and wine list. The time limit idea on food and drink is not new. Years ago a saloon in Texas had an offer of a flat price for all you could drink in one hour.

Be alert—don't sleep

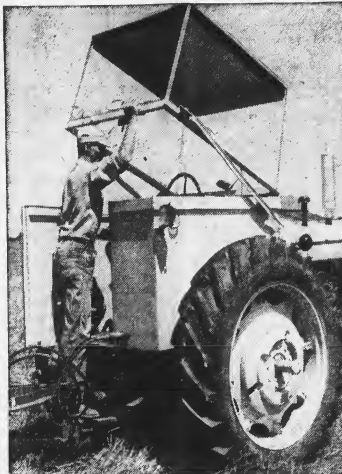

How much nightly sleep do you require to feel in the pink next day? An expert on the subject says the more mentally alert a man is the less sleep he needs. That a really smart fellow can get along on six hours' sleep per night. That lets me out. I have to have eight hours sleep or I am grouchy the next morning.

It's permanent in Italy

In Italy a male can legally marry at 15 and a female at 15. But the Italian men usually marry at 25 and the women at 25. Major reason for the delay is that in Italy marriage is for keeps. The participants have to be as certain as possible they were made for each other. In Italy divorce is practically non-existent.

Speed the cause of it all

When "Casey" Jones became fatally involved in that railroad crash immortalized in song and story, he was trying to make up time. To get the Cannonball Express on schedule again. Too many railroad, plane and steamship disasters have been caused by frantic efforts to make up time. It might be wise for all types of transportation to adopt a strict policy of "better late than never." Also there are laws covering the matter of excessive speed on railroad tracks, in the air and on the sea. They should be as strictly enforced as those relating to speed by automobiles on public highways are.

FARMER'S DREAM COME TRUE—Demonstrating the ultimate in farm luxury, a Doylestown, Pa., farmer lifts the glass and steel cover on an all-weather tractor. The cabin provides air-conditioning for the summer and heat for the winter. The tractor also has a push-button radio.

Walking Weather

After the heat waves are over, the biting insects gone and sunshine a little less strong, the walker comes into his own. Autumn days in Canada are beautiful and just right for that best form of exercise—walking. Going places on

one's own two feet gives a stimulating workout to mind and body. A person in normal health should take a daily walk. Even aged people who can get around should take a short stroll every day, weather permitting.

Quick Canadian Quiz

- Which is the longest of the Great Lakes?
- When introduced in 1945 family allowance payments cost \$17.5 million per month. What is the present monthly cost?
- What is the total number of Canadians employed in each of these industries: farming, mining, manufacturing?
- Who was Prime Minister of Canada from August, 1930, to October, 1935?
- In the current year will the federal government spend more on national defence or on welfare and social security?

(Answers in another column)

World salt production

Canada is second to the United States in the Western Hemisphere in salt production, but Canadian output is exceeded by wide margins by that of France, West Germany, Italy, Poland, Soviet Russia, Spain, China and India. Total world output in 1954 was estimated at 63,400,000 short tons.

New radioactive finds reported

One of the geological survey parties of the Department of Mineral Resources, working in the Precambrian part of Saskatchewan, reports the finding of a number of radioactive pegmatites on islands in Manitowish Lake.

The main zone of pegmatites lies 10 miles south of the junction of the Reindeer and Churchill Rivers, and 85 miles ENE of the settlement of La Ronge. The radioactive pegmatites occur in a zone five miles long and a half mile wide. Four surface samples, assayed radiometrically by the Geological Survey of Canada, Ottawa, ran 16, 073, 086, and 063 percent U208 respectively.

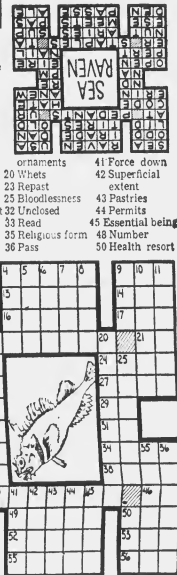

Geological sketch maps of the area on a scale of one-half mile to one inch, showing the location of 14 radioactive occurrences, are available at 10 cents each from the Mineral Resources Department Mining Recording Offices at Regina, Prince Albert, Flin Flon, La Ronge and Uranium City. At the time of this news release, no mineral claims were registered on these mineral occurrences.

Government of the Province of Alberta ANNOUNCES THE EIGHTH ANNUAL

MASTER FARM FAMILY AWARD

FOR 1956 TO THE FOLLOWING:

ALFRED GEORGE ROSE
Ricinus

JOHN P. ROZMAHEL
Viking

A. D. FRASER
Teepee Creek

WILFRED L. MCGILLIVRAY
Coaldale

The Master Farm Family Award is recognized by an award of \$1000.00, an engraved plaque and a name plate for the farm entrance. The purpose of the Master Farm program is to find and honour those who have achieved notable progress in farming, home-making and citizenship, and who, by their example, are encouraging interest in farming as a way of life. The Department of Agriculture is indeed proud and gratified with the high standard of attainment among the farm citizens of Alberta as revealed by the Master Farm Family Program.

The Coleman Journal

Personalities IN THE NEWS

Brian Park, who has been employed at Radium Hot Springs, during the summer has returned to Coleman for the winter months.

Mr. and Mrs. Harry Boulton were Calgary visitors last weekend.

Mr. and Mrs. A. Phillips have returned from a three week visit spent with their son P/O Eddie Phillips, his wife and grandson David at Victoria. They also visited in Vancouver with former Coleman residents, Hob Jones and Mr. and Mrs. Reese who wish to be remembered to all.

Mrs. Mary Gettman visited last week at the home of her daughter and son-in-law Mr. and Mrs. J. Caruso of Lethbridge. She also visited in Fort Macleod with her mother, Mrs. J. Pasco and brother and sister-in-law Mr. and Mrs. John Pasco.

Mr. and Mrs. J. Gettman visited in Lethbridge and Fort Macleod last weekend.

The Catholic Women's League will hold their annual tea and bazaar in the Italian Hall on Saturday, October 6th.

At a successful tea, apron sale and bake table held in the Elk's Hall by the O.O. Royal Purple tea prize was won by Mrs. S. Taborski of Bellevue and the buffet set by Mrs. H. Maslen.

Mr. Wyndham Jones, who recently sustained leg injuries in a fall at the mine offices, is progressing favorably in the Holy Cross Hospital in Calgary. Friends send their best wishes for a speedy recovery.

FISHING by NIMROD

Some time ago there was a letter in this paper stating the fact that in the European countries the common people (such as you and I) were not allowed to hunt or fish on certain lands or waters, only the very rich, such as Lords and Dukes, could do so.

This is very true. These people owned all birds and animals on their land and the fish in the waters that passed through their land. They raised their own pheasants, grouse deer, and only allowed a certain percentage to be taken each year. They would invite a number of so-called sportsmen for the annual shoot.

A grouse shoot went like this: the butts blinds to you, would form a large semi-circle about two miles away, then they would start shouting and waving flags and so drive the birds toward the butts.

To protect all this the owners engaged men called gamekeepers. Anyone without permission found fishing or hunting on their land would be called a poacher and would be charged as such in court and fined.

A certain Duke where the writer comes from, owns a very large estate. There is a very fine stream running through his estate which is kept well stocked with Brown Trout. Well, one day the head gamekeeper caught an old man fishing on the stream. He gave the old man a severe beating then ordering the old man off the land he kept the old man's rod and fishing tackle.

This happened about two miles from the Duke's estate where the gamekeeper stayed. After awhile the old man showed up at the gamekeeper's house and told the woman of the house that her husband wanted his best rod and tackle. She gave the things to him and off he went. He was taken to court and charged with theft. But times were changing and the judge who tried the case said that, taking all things into consideration, he thought it was a fair trade and dismissed the case.

So, you hunters and fishermen, value your freedom of hunting and fishing. Don't destroy game animals needlessly. Obey the regulations as they are designed to allow to each hunter or fisherman so much game or fish, always with the future in mind.

For a land where there are no game animals or fish in the waters is poor indeed.

I gave you an example of what it was like in Europe but I note that the same thing is creeping into Canada. Private fishing streams in the provinces back east and in certain parts of Alberta and

Mrs. J. Owen is home again after being a patient in the C. N. hospital for a few days last week.

Mrs. Fred Erb of Winfield, Alberta, is visiting with her daughter, Mrs. W. Rusk and family.

Dr. Peter Allen of Edmonton, visited with his parents, Mr. and Mrs. E. Allen last week.

Friends are pleased to hear that Mrs. A. Salus is home again after having been a patient in the Crows Nest Pass Hospital for the past three weeks.

Mr. Henry Kwasney was in town last week on a business trip en route to visit his sister in San Diego California.

Mr. and Mrs. Hod Pharis returned on Sunday from a holiday spent in St. Louis and Kansas City, Mo. They also visited Custer's battlefield, the Ozark Jubilee, Jesse James' house and many other historical points. Mrs. Pharis and sons Tom and Ross, stayed over in Coleman this week the guests of her parents Mr. and Mrs. T. Holstead.

Mrs. J. Panek of Vancouver is visiting here the guest of Mr. and Mrs. W. Hopkins.

Mr. and Mrs. A. Beveridge have returned from a holiday spent at Chicago. They also visited the latter's nephew and wife Mr. and Mrs. W. Milley at Toronto.

Mrs. W. Ford has returned from Edmonton where she attended the Provincial meeting of the Canadian National Institute for the Blind.

B.C. restrictions of various kinds. For the rich are usually very possessive and disregard the rights of others.

To be a sportsman and respect the other fellow's rights and before you pull the trigger of your rifle be sure that you recognize the object that you are aiming at. And it was cannot recognize the object give up hunting and take up fishing, it's safer for you and me.

Power Is Dangerous

It is beginning to look as if another wave of strikes and work stoppages will take place again this year. As a result, a few selections of the working force will get more money. The rest — the majority — will pay higher prices for what they buy.

It makes you wonder whether the unions, now that they've formed a combine, will ever stop boosting their demands. Today, acting together, with huge financial war chests, their power is almost unlimited. They could, if they are determined, create another depression in a hurry.

In order to protect themselves from this rise in cost of manufactured goods, the farmers are now forming combines or cartels, or whatever you want to call them, to increase the price of their products. When all the various farm organizations get together, they too have tremendous power. If they were ever to push this power too far, they could also create another depression.

The amazing thing is that labour unions and farm organizations seem to receive encouragement in the formation of these power centres. The government, with its right hand, wields a big stick to keep industry from forming combines; but with its left hand, it encourages farm and labor groups to do so. Perhaps the reason is that the politicians know industry has relatively few votes, while farm and labor have many.

At any rate, the government itself has an inclination towards monopoly. Whenever it decides to get into a business, it seeks a monopoly in that area. TCA is one example; there are others.

Perhaps this formation of power centres would not be too bad if evenly balanced. But at the moment, they are not evenly balanced at all. As a result, those of us who are on the outside the comforting power centres can get pretty badly mauled.

The small-town worker gets hit hardest of all. He has no union power, and his wages rise slowly and naturally. The prices of things he has to buy, however, soar upwards at unnaturally high rates, artificially boosted because of union or farm power. The vast ma-

jority of workers are not unionized and receive only the natural increases while home with increased production.

If pushed too far, they will stop buying — that is, they will buy the minimum amount necessary for life. They'll double up in home accommodation, keep the old car a few more years, cut out luxuries entirely. Unemployment will begin, investments will dry up, and we'll be cruising towards another cycle of poverty in the midst

of plenty.

It is to be hoped that responsible farm and labor leadership will recognize this danger, and act accordingly.

THE COLEMAN JOURNAL

* Welders and side-boom tractor operators are not delayed by the fast-flowing Swift Current creek as they build the Trans-Canada Pipe Lines 34-inch line from Burstall, Sask., to Winnipeg. Here the line-up crew and hot pass welders work as a team to joint the 40-foot lengths of pipe. (Trans-Canada Pipe Lines Photo)

* First important water crossing for the Trans-Canada Pipe Lines 34-inch pipe line from Burstall, Sask., to Winnipeg, occurred at Swift Current creek, about 18 miles northeast of the city of Swift Current. On the west side of the steep bank the pipe has been welded into a continuous line, awaiting the cleaning and priming, coating and wrapping operations, following which the pipe will be lowered into the ditch. On the east side of the creek the 40-foot lengths of pipe are strung beside the ditch, waiting the line-up crew and welders. (Trans-Canada Pipe Lines Photo)

TOWN CHATTER

(By Ron Crippen)

Well, folks, what a week. Tied up in bed for most of it. Old Man Flu sure didn't like me. Really gave me the "works"—this on top of a couple of very sore ribs. Oh, well, that's life. I've been informed I was not alone, seems to be over 65 flu cases in Coleman.

Just listening to the radio—Brooklyn won again. Well there goes Milwaukee Braves. A very close race. First game of the World Series will be history when you read this. Got a buck on Brooklyn for the first game.

While on sports—the Calgary Stampede Football Club should be in the basketball circle with the scores being registered against them.

They don't seem to be receiving much sympathy from South Alberta fans, especially the towns their business representatives bamboozled this spring on the training camp set-up.

See where the Legion baseball club are staging a benefit game for the Kerner Fund. Get out and support this effort—bring those old coins along for a donation.

Weather against the high school track and field meet on Friday. Had to be cancelled. Our suggestion is that this event is held too late. Why not the first Friday after school re-opening? Better chance for fine weather.

Question of the Week—What is Coleman doing for the teenagers this winter? That is the question that we have been asked by several parents. Our answer—nothing that I know of. But we have some suggestions that service clubs could tie into. How about two nights a week dancing in one of our halls to a juke box or record player; set up a bowling league, a Drama Club? How about the teen-agers themselves thinking up and organizing something for themselves? Much better than us doing it.

Our Mad of the Week—Read in the daily papers of two disgusting events happening—one in Calgary and one in Toronto. Really mad after reading these. In Calgary a representative of the police force beating up a man in police cell, after being warned to leave the man alone by jail attendant. The other two young and hardy minions of the law in Toronto beating up a man with blackjacks. Mashed his hands so bad probably will lose two fingers. This man a double amputee. He even tried to tell them he had no legs. Magistrate trying these law officers taking a very dim view of these proceedings. What has happened to our way of life? Old time policemen would not do this. They apprehended their man and force was only used to hold or in case of life or death did they revert to weapons. Beating a prisoner has no way in Canadian life. Guess no thus are not needed in Canada and the people living in centres where these sort of things happen should make strong representations to the heads of police departments allowing these things to happen.

Our Tip of the Week—Obey the instruction of the school patrols. They are there for your child's safety.

Country Editor

* Canadiana: At Clanwilliam, Man., Harvey Hanson arrived home from church on Sunday, spotted a bear in his yard, called his brother who came out with a rifle and shot it, just like that. . . . It took an hour's surgery and 39 stitches for wounds in the face of Caroline Brockmeyer, 5 years, of Grayson, Sask., in a Yorkton hospital after being bitten by a mongrel dog she tried to make friends with. Fred Franks rushed to her rescue and was also bitten, but he used his knife to slash the dog's throat and rescue the girl.

pleasant task for Rotarians of Weyburn, Sask., after their regular luncheon when they delivered 85 dozen gladioli to the sick and shut-ins, elderly folk at the Union hospital. . . . Married in Regina were Mrs. Maude M. Roberts and Edwin Cunnell, both 84, who met on a bus en route to Moose Jaw for the annual Old Age Pensioners picnic; love at first sight. . . . After a visit of 189 Texans to the Indian Head (Sask.) Experimental farm to get acquainted with farming methods of Saskatchewan, the superintendent received a real fancy, costly pair of cowboy boots.

. . . At Prescott, Ont., the town clowning has received a real overhauling. Nothing, however, reports the Journal can be done about the many holes made by BB shots and the odd snowball. . . . Joseph Kunkel, the village blacksmith at Midway, Ont., has reached 88.

He still works in his shop and does many repair jobs for local farmers. His recipe for living: "When I get tired I go to the house for a little while, have a bite to eat and a small glass of wine and a bit of a rest and then I am ready to work for a while again." . . . another 90-year-old, John Douglas Matthew at Gananoque, Ont., gives his recipe for a ripe old age: "Learn to get along well with people." . . . Says the High River, Alta. Times: "In comparing the demands of various professions and vocations on a man's time and energies, it seems a pity that life is too short for all round experience; so who is to say with assurance which occupation is easier than another, and which is overpaid or underpaid?"

* Kitchener-Waterloo (Ont.) Record: "It is better not to rush into state health insurance. There are many angles to it which should first be considered carefully."

* Estevan (Sask.) Mercury: "Quite a few inconsistencies develop nowadays in political and economic thinking particularly when the two are intertwined and it would seem that dollars and cents do occupy a greater place in the political sphere than ever before. In almost every variety of political action the main motive involved is that dealing with the monetary aspect present and future."

* Killarney (Man.) Guide, philosophizes: "When I quit this mortal shore, and money around the earth no more, don't weep, don't sigh, or go and buy a large bouquet for which you'll find it hard to pay; don't mope around and feel all blue. I may be better off than you. Don't tell folks I was a saint or any old thing that I ain't, if you have roses, bless my soul, just pin one in my buttonhole while I'm still alive and well today. Don't wait until I've gone away."

Cards of Thanks

With the publication of the Financial statement last week the 1956 Rodeo is now wound-up. We wish to thank all those who donated of their time and energy to make the 1956 Coleman Rodeo day the success it was. Also at this time our appreciation to those Companies, merchants or individuals who gave donations in the form of money, prizes, supplies and use of equipment. We again thank you.

It takes money to make good gasoline

Gasoline quality has risen tremendously in the past few years. Two gallons of today's gasoline do the work of three in the '20s.

Finding new techniques to make these improved gasolines, and new equipment to put these techniques to work, has cost a lot of money.

Imperial, with by far Canada's most extensive oil research facilities, has spent 20 million dollars over the past ten years on research alone.

Imperial spent 65 million in the same period directly on new equipment to improve gasoline quality.

It's costing more and more money to make the gasolines required by today's more powerful cars.

World Happenings In Pictures

THEY'RE WINNERS WITH BRAVES—Bob Trowbridge, left, and Taylor Phillips of the Milwaukee Braves, flash winning smiles as their combined efforts helped defeat the St. Louis Cards 6-3. Trowbridge pitched eight innings and Phillips relieved in the ninth. Braves, meanwhile boosted their National League lead to three-and-a-half games over Dodgers and Cincinnati.

CAPRI PANT—The girl who likes to vacation late will find this striped corduroy Capri pant a useful addition to her wardrobe. It can be worn at home or at a country resort.

GEE, LOOK AT THAT!—The center of attention, a horned corydalis continues its creepy journey under the fascinated gaze of three pairs of eyes. The insect and insect-watchers were at the Claremont, N.H., railroad station when they met each other. The trio, from left to right: Howard Mark, nine, from Cornish, N.H.; Alfred Kelton, 12, from White River Junction, Vt., and Michael Kelton, nine, from Athens, Vt.

MOUNTAIN VISTA—As seen through an engineer's eye, picture, above, shows a passenger car traveling through a mountain pass at an altitude of 10,000 feet. Frame for the picture is an observation port in a pressure chamber at Ford's Dearborn, Mich., research centre, where carburetors are tested under various atmospheric conditions.

BETWEEN ROUNDS—Adlai Stevenson takes advantage of the lull between convention and campaigning to rest up on his Libertyville, Ill., farm. Above, the Democratic presidential candidate examines an ear of corn in one of the fields on his 70-acre estate. Adlai is preparing for what his manager calls "the greatest grass roots campaign of all times."

TWO TO GET UP—Ragge Lundberg, Swedish pole vault champion, performs brilliantly for one special spectator—his wife, Jinna. Mrs. Lundberg, a polio patient, was "loaned" to her husband for two weeks by the convalescent home in Stockholm on the condition that Ragge learn the gymnastics program Jinna has to go through every morning. Having learned it all, Ragge is now able to teach his wife how to move again, while he keeps training for the Olympic games. They hope soon to reach their goals: his, to jump higher; hers, to walk again.

MEDICAL CHECK—Every army cadet who attends summer training at Camp Dundurn gets a careful medical check from one of the army doctors. Here Pat Fuller of Indian Head takes his from Capt. A. L. Newhouse of Vancouver.

BEAUTY AND THE BEAST—The beauty is eight-year-old Geraldine Vevers and the beast, the newly-erected Unicorn of Scotland. The place is the Royal Botanic Gardens, Kew, London, where work has started on the 10 Portland stone replicas of the Queen's Beasts which are being placed on the lakeside terrace of the Palm House. Each of stone figures is six feet high. The beasts are based on heraldic devices used by the Queen's ancestors.

JUST LIKE POP!—Vancouver's Jim Davies is seen with trainer Russ Copeland after pulling out top honors in Olympic cycling trials here. Young Jim is rated almost certain to gain one of two places on the 1956 Olympic cycling squad. His father represented Canada at the 1928 Games.

SPEED RECORD—F.O.R.J. Childerhose, left, of Arcola, Sask., takes coffee as his Trans-Canada record-setting RCAF Sabre Jet is refueled at Gimli, Man. He and P/Lt. Ralph Annis, of McAdam, N.B., flew 2,740 miles in five hours, 30 seconds for a Vancouver-to-

Halifax speed record. Capt. Manuel J. Fernandez, Jr., in centre photo, admires the Bendix trophy he won by racing 1,120 miles from California to Oklahoma City at an average speed of 666.661 m.p.h. With him, right, is Gen. O. F. Weyland, who presented trophy.

Industry and education

(From The Virden Empire, Virden, Manitoba—July 11, 1956)

Something is going to be done about education, apparently.

Education, in this instance, means particularly the training of engineers and technical personnel to help man the vast developments taking place in Canada and the growth expected in the coming years.

At present there is a definite shortage of such personnel—to the extent that it is threatening the well-being of the economy—and the situation threatens to become worse.

Apparently the something to be done won't be left entirely to traditional avenues.

At virtually every industrial gathering these days—and particularly at the recent conventions of the Engineering Institute of Canada and the Canadian Manufacturers' Association—the topic has overshadowed all other themes.

If what is being said means anything, then business and industry may be expected to take a greater responsibility in the educational field than ever before.

Many businesses have made contributions over the years in various ways, especially through scholarships. What they have been doing, however, has been far short of what is needed to meet today's situation.

Crawford Gordon Jr., president of A. V. Roe Canada Ltd., said at the CMA meeting:

"The income tax act provides that corporations may deduct up to five percent for gifts to charitable and educational institutions. In recent years the average has been less than one percent. In 1952 this amounted to about \$26,000,000. Of this, less than 11 percent—or just \$2,800,000—went for education.

"This is just a drop in the bucket when you consider that Canadian universities are talking about expansion of between \$250,000,000 and \$300,000,000 in the next ten years."

Mr. Gordon announced that a national conference on scientific and engineering manpower will be held September 10-11, with the blessing of the Dominion Council of the Associations of Professional Engineers and the support of business and industry.

Sheep raising not popular

(From The Lacombe Globe, Lacombe, Alberta—July 19, 1956)

Sheep raisers in central Alberta were some \$8,250 richer, following the 1956 collection of wool made by their organization. The sheep are always sheared before the hot summer weather, and the annual deliveries are made early in July.

This year, the advance payment was 15 cents on each pound of wool. Total amount of wool from all central Alberta was 55,000 pounds, Lacombe heading the list with 21,000 pounds, followed in order by Red Deer, Westlock and Ponoka. Since these centres also act as divisional points for their respective farming areas, it is evident that sheep raising is not too popular in this part of the country.

There are probably several reasons for this trend. Sheep are difficult to manage, compared with other livestock. Losses in the grazing fields are high, particularly with the heavy coyote population which exacts its toll. Returns are not commensurately great, evidenced by the above figures for a whole season's wool "harvest". The final price in full settlement, determined later on the actual market value, means only a few extra dollars. Sheep can always be used for meat, of course, and lamb is the favorite course in many a household, but most farmers hereabouts seem to prefer to supply the dinner table with choice beef or pork.

While the number of sheep raisers within the central Alberta wool growers' association remains about the same, it is significant that only 24 were classified this year in the "large shippers" category, with over 500 pounds of wool each.

Do FALSE TEETH Rock, Slide or Slip?

FASTTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. FASTTEETH is alkaline (non-acid). Does not sour Cheeks (white acid) (denture breath). Get FASTTEETH at any drug counter.

Christie leaves forestry service

Charles Roy Christie, 50, who had been known as the "Grand Old Man of Forestry" in Saskatchewan, retired as senior forester of the provincial natural resources department's forestry branch on August 31.

His retirement, due to ill-health, brought to an end a career as a Saskatchewan forester, which lasted 37 years and three months—the longest, in point of service, of any resources department employee.

He was regarded by fellow department workers as a good administrator and admired for his forthrightness and ability to make decisions quickly.

His guiding hand was felt in many of the policies and programs inaugurated over the years, which led to much wider utilization of forest materials in Saskatchewan. He was instrumental in setting up the technical services divisions of the forestry branch, a task begun early in 1947, and for working out a white spruce cutting quota enabling the forestry branch to maintain a sustained yield policy for Saskatchewan's saw timber industry.

SYNTHETIC COFFEE
A Netherlands industrialist, A. Van Driel, has perfected a synthetic coffee which is said to duplicate perfectly the flavor and aroma of brew made from the coffee bean. 3212

THE LONG, LONELY WAIT—A Chinese Nationalist soldier mans his lookout post on the strategic island of Quemoy. Tens of thousands of Nationalist troops in nearly as many trenches, bunkers, pillboxes and lookout posts are dug in on Quemoy—ready and waiting for any attack that might be launched from Communist China across the way. The island in the distance is Communist-controlled Taitung, where 10 batteries of artillery sporadically fire against the Nationalist outpost.

Big game seasons and bag limits for Saskatchewan

Saskatchewan's Big Game Hunting season dates and bag limits were announced by Game Commissioner E. L. Paynter. They apply to all big game of either sex, and all dates and zones are inclusive.

Antelope may be hunted from Nov. 5 to Nov. 10 in zone 6 and zones 8 to 14 and in the Arena, Battle Creek, Beechy, Big Stick Lake, Bitter Lake No. 1, Lone Tree, Masefield, Mankota, Middle Creek, Monet No. 1, Nashlyn, Reno No. 1, Reno No. 2, Val Marie and Wise Creek Game Preserves. Bag limit for these areas is one antelope of either sex.

Barren Ground Caribou hunting will be open to residents of wilderness areas only from Sept. 1 to Jan. 31. Bag limit is two caribou of either sex.

There is an open season on bear for non-residents in zones 33 to 52 with a bag limit of two bear of either sex. Mr. Paynter said. Residents may take bear at any time in all zones.

Season for deer (archery only) will run from Oct. 8 to Nov. 3, in zones 1 to 32 and in the Crystal Beach Game Preserve. Bag limit is one deer of either sex.

In zones 1, 2, 22, 36, 37, 38, and 48, deer may be hunted from Nov. 19 to Dec. 8 with a bag limit of two deer, either sex. The deer season in zones 10 and 11 will open a week earlier—Nov. 12—and will run through Dec. 8. These are also two deer zones.

For a la Corne, Lizard Lake, Park, Pasquia, Porcupine, Spy Hill and Swift Current No. 1 Game Preserves will be open for the hunting of deer from Nov. 19 to Dec. 8 while in the Cypress Hills No. 1, Cypress Hills No. 2, and Cypress Hills No. 3 Game Preserves deer may be shot for one week only—Nov. 12 to Nov. 17. A portion of Moose Mountain Game Preserve, west of highway No. 9 will also be open one week for deer—Nov. 19 to Nov. 24. Bag limit in each case is the same as that for zones in which they are situated.

Non-resident aliens may hunt deer in zones 33 to 52 from Nov. 19 to Dec. 8. Bag limit is one deer either sex.

One-deer licenses are valid in zones 1 to 32. Mr. Paynter said. Zones 10 and 11 will be open one week—Nov. 12 to Nov. 17 for the hunting of elk with a bag limit of one elk of either sex. The Cypress Hills No. 1 and Cypress Hills No. 2 Game Preserves will be open for elk the same week with a bag limit of one elk of either sex.

The elk season in zones 35 to 46 and 49 and in the Divide, Fort a la Corne, Greenwater Lake, The Pines and Torch River Game Preserves will open Nov. 19 and close Dec. 8. Bag limit is one elk either sex.

In zone 2 and a portion of Moose Mountain Game Preserve west of Highway No. 9, hunters will be allowed one week—Nov. 19 to Nov. 24 for the hunting of elk. Bag limit is one elk either sex.

The season for moose in zones 33, 41, and 47 to 51 will run from

Sept. 10 to Sept. 29. Bag limit is one moose, either sex. Kazan and Cummins Lake, Clarke and Beaurive Lakes, Emmeline and Swan Lakes, and Pasquia Game Preserves will also be open from Sept. 10 to Sept. 29 for moose. Bag limit one moose, either sex.

Moose may be shot in zones 35 to 51 and in Clarke and Beaurive Lakes, Cold Lake, Divide, Emmeline and Swan Lakes, Fort a la Corne, Greenwater Lake, Kazan and Cummins Lake, Pasquia, Porcupine, The Pines and Torch River Game Preserves from Nov. 19 to Dec. 8, with a bag limit of one moose of either sex.

Residents of game management zone 52 only may shoot moose from Nov. 10 to Nov. 29 and Dec. 3 to Dec. 24 in zone 52 and in that portion of Emmeline and Swan Lakes and Clarke and Beaurive Lakes Game Preserves lying within the boundaries of zone 52 and also in Kazan and Cummins Lake Game Preserves.

Non-resident Canadians and non-resident aliens are required to use the services of a registered guide. Their licenses are good for both seasons.

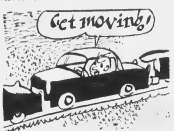

Residents may obtain party li-

Strictly Fresh

The fellow who leaves work early two or three times a week needs help of an optometrist, not a doctor. The poor guy is clock-eyed.

Taking candy away from our baby is about as easy as separating a tigress from her young.

Take a few million-headed drivers, add some nuts behind the wheel of several other autos, let

simmer at an intersection in mid-day sun. That's the recipe for a traffic jam.

Stretch-to-any-size socks cover a multitude of shins.

ences if they wish. These licenses are valid only in Zones 35 to 5, and a separate licence is required for each season.

Residents wishing to hunt moose or elk may purchase a Moose-Elk licence which is good for taking a moose in the first season or a moose or elk in the second season. If the hunter is not successful during the first season, Mr. Paynter said.

Increase noted in traffic accidents

To the end of July, a total of 4,783 motor vehicle accidents were reported in Saskatchewan, an increase of 620 over the same period in 1955.

A report issued by the provincial highway traffic board showed that during the first seven months of 1956, 51 persons met death on the highway, 1,522 were injured and property damage amounted to \$1,675,032.

This was an increase in all categories over last year, when 48 persons were killed, 1,082 were injured and property damage amounted to \$1,365,328.

The report also listed statistics for the month of July. They are as follows, with 1955 figures in brackets:

Number of accidents 895 (668); fatalities 13 (12); injured 425 (249); property damage \$599,355 (\$264,851).

During July, the most dangerous hours of the week for motor vehicle accidents were between 5:00 p.m. and 8:00 p.m., when 22 percent of the month's accidents took place. Almost 13 percent occurred between the hours of midnight and 4:00 a.m.

Sunday was the worst day of the week for accidents during July, followed by Saturday, Friday, Tuesday, Monday, Thursday and Wednesday.

Unwanted guests

As the weather grows cooler, houseflies make more efforts to get into the house, where they may hibernate and, next spring, breed in their thousands. These insects are dangerous since they transmit diseases through germs collected during their travels. They may fly from garbage heaps and other fifth straight to kitchen and dining room, unless prevented. Well screened windows and doors and generous use of insecticides will help to keep the house free of these pests.

It is believed that the art of knitting originated in Scotland about the beginning of the 16th century.

MY FAMILY LOVES THIS RASPBERRY Double-boiler Pudding!

Grease upper pan of double boiler generously. Measure into pan
1 1/4 c. (10 oz. can) canned raspberries and syrup
1/4 c. granulated sugar
2 tps. corn starch
Mix well and set aside.

Sift together
1 1/4 c. once-sifted pastry flour
or **1 1/4 c. once-sifted all-purpose flour**
1 1/4 tps. Magic Baking Powder
1 tsp. salt
Cream
3 tps. shortening
Blend in
1/2 c. granulated sugar
1 egg
Combine
1/2 c. milk
1/2 tsp. vanilla
1/2 tsp. grated lemon rind

Add dry ingredients to creamed mixture alternately with flavored milk, combining lightly after each addition. Turn into double-boiler over raspberries. Cover closely and cook over boiling water until batter is cooked—about 1 1/4 hours—add boiling water, if necessary, to under pan.

Turnout pudding onto a deep serving dish. Pass chilled custard sauce or pouring cream. Yield: 4 or 5 servings.

MAGIC protects all your ingredients. Get lighter, flatter, textured results
... **MAGIC BAKING POWDER** today.

Legion Bingo Draws Large Crowd

A cold, nasty evening outside did nothing to hamper the hotly contested efforts of ardent bingo players in the Legion Clubrooms on Friday evening. With the first game of the new season folks were on hand aplenty. Mr. Pete Smith the bingo supervisor really had his hands full.

Winners of the ten game card were as follows:

1.T. Sudworth, 2. J. Kovalik, 3. C. Makin, 4. Mrs. H. Hopkins, 5. Mrs. S. Lepack, 6. Mrs. P. Failer, 7. Joe Troitz, 8. four winners, Mrs. Joseph, Mrs. W. Fields, Mrs. H. Maslen, J. McDonald, 9. Mrs. Belish, 10. Jackpot, not won, Consolation, Mrs. Farano and W. Chicki.

COUNTER CHECK BOOKS Apply Coleman Journal.

AUTUMN

Pair Autumn greets us once again. In gown of gorgeous hue; She's wearing all the shades of green, And some scarlet, too. There's brown and buff and dark maroon, Such colors she puts on; We think it is to tell us that The summer days have gone.

And every day she makes a change. Some little alteration; Some little fancy of her own In this wondrous creation. The little bluff that once was green, Beside the sheltering hill, Is all a-flame of yellow now Like the golden daffodil.

Where once we saw a purple patch Embroidered on her gown; Now we see the silvery grey.

It is the thistle down; It floats and flutters on the breeze Like silky bits of lace. Till Autumn reaches out her hand, This dainty thing to place.

The rose bush that in June was gay With flowers of beauteous hue, Is red as wine and marks the place Where sweet wild roses grew. And here and there we see a flower Fair Autumn's dress to deck, And water sparkling in the sun, Like diamonds round her neck.

And when the nights grow cold and chill, And frost is in the air, She hastens with more reds and browns, And less of green to wear.

This is Autumn's evening dress, Before she says good-night.

And then retiring goes to sleep 'Neath Winter's quilt of white. Mrs. N. E. Graham, Creston, B. C.
